488 PISTA

2020

HISTORY TECHNICAL DATA GALLERY

The Ferrari 488 Pista is equipped with the most powerful V8 engine in the history of the Maranello House and brings to a road car the highest level of technological transfer from the world of races, as is evidenced by the name, a direct tribute to the incomparable history of Ferrari in this field.

The Ferrari 488 Pista transfers track and competitions experience gained worldwide, from the 488 Challenge and the 488 GTE to the road.

Very precious is the Active Aerodynamics: thanks to moving elements, depending on the driving conditions, the car can change its “drag coefficient” (Cx) in order to gain more speed or grip. The guide is exhilarating on the road and absolutely precise on the “fast”, with infinite grip on track.

488 PISTA

The performance of the Ferrari 488 Pista is absolute stunning: “0-100” in 2.85 seconds, “0-200” in 7.6 and 340 km/h at the top, due also to the F1 7-speed dual-clutch gearbox.

In the refined cockpit, with standard leather upholstery, there is the racing steering wheel, with paddles for the sequential transmission and main controls: among these, also the “manettino” that allows you to change the calibration of the control electronics and engine response.

Simply the most powerful V8 in Ferrari history.

It is possible to view the car online, booking a call with one of our commercial operators, via Skype, Zoom, Whatsapp and Google Meet platforms.
